AHMAD RASHEED

ahmad.r.tec@gmail.com | +92 337 6018055 | Bhatta Chowk, Lahore, Pakistan

PROFESSIONAL SUMMARY

Motivated Computer Science Final-Year Student and Full-Stack Developer with hands-on experience in building scalable web applications using Angular and ASP.NET Core MVC/Web API. Strong foundation in RESTful APIs, SQL Server, and modern web technologies. Skilled in developing responsive Single Page Applications (SPAs), implementing secure authentication, and writing clean, maintainable code. Eager to apply technical skills in a software development internship and contribute to real-world projects while learning from experienced teams.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, C#, Java, TypeScript, JavaScript, PHP.
- **Frameworks:** Angular, ASP.NET Core Web API, ASP.NET Core MVC, Bootstrap.
- **Web Technologies:** HTML5, CSS3, jQuery.
- **Databases:** MySQL, SQL Server.
- **Tools:** Git, GitHub.
- **Core Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), RESTful APIs.

PROJECTS

FitMind – Angular, ASP.NET Core Web API **February 2025 – Present**

- Developed a full-stack fitness forum using Angular (SPA) and ASP.NET Core Web API.
- Designed and implemented RESTful APIs for user posts and interactions.
- Engineered a secure Two-Step Email Authentication system with token verification for user registration.
- Integrated an AI-based content moderation API to automatically moderate and verify user-generated content and images.

Fancy Tailor – PHP, Bootstrap, MySQL **February 2024 – March 2024**

- Digitized traditional tailoring records into a full-stack PHP-based tailor management system using PHP and MySQL.
- Developed a Dynamic Form Engine allowing custom measurement fields.
- Streamlined shop-floor operations by migrating manual data to a responsive web application.

VotVision – PHP, Bootstrap, MySQL **October 2023 – January 2024**

- Developed a secure full-stack online voting platform with Authorization based panels for Admins and Voters.
- Implemented REST-like architecture and real-time result tracking using PHP and MySQL with Responsive UI.
